CALIFORNIA LEGISLATURE—2007–08 REGULAR SESSION

ASSEMBLY BILL

No. 1406

Introduced by Assembly Member Huffman
(Coauthors: Assembly Members Beall, Benoit, and Berryhill)

February 23, 2007

An act to amend Section 13553 of the Water Code, relating to water.

LEGISLATIVE COUNSEL’S DIGEST

AB 1406, as amended, Huffman. Recycled water: toilet and urinal ~~flushing~~. *flushing: condominiums.*

Existing law requires the State Department of Public Health to establish uniform statewide criteria for each varying type of recycled water use if the use involves the protection of public health. Existing law declares that the use of potable domestic water for toilet and urinal flushing in structures, as defined, is a waste or an unreasonable use of water if suitable recycled water is available for those uses. Existing law generally authorizes a public agency to require the use of recycled water for toilet and urinal flushing in structures if certain requirements are met.

This bill would include condominiums within the meaning of “structure” for the purposes of those provisions.

The bill would allow the use of recycled water in condominium projects subject to specified conditions, including a requirement that the agency delivering the recycled water to the condominium project file a report with the appropriate regional water quality control board and receive written approval of the report from the State Department of Public Health.

Vote: majority. Appropriation: no. Fiscal committee: yes.
State-mandated local program: no.

The people of the State of California do enact as follows:
